### **Risk Assessment**

---

Is Social Distancing still a requirement by the local Public Health Authorities?	Y
Will training be held on multiple fields?	Y
Is community spread still a concern in the municipality?	?
Will training include a significant number of participants (athletes or coaches) at higher risk of severe COVID-19 disease (e.g., people over 65 years of age or people with underlying health conditions)?	N
Will training include drills that are considered at higher risk of spread for COVID-19 (eg, contact, close proximity)?	N
Will the event be held indoors?	N

### **Understanding of the overview of the current COVID-19 situation by the Club / Event organizers**

---

Have the relevant organizers and responsible staff been informed about the latest available guidance on the COVID-19 outbreak (official web resources available from Government of Canada and local public health authorities)? And are the organizers and staff concerned committed to following the available guidance?	Y
Are organizers aware of global and local daily situation reports as provided by local public health authorities?	Y
Do the organizers and responsible staff understand the risks and transmission routes of COVID-19, the steps that attendees can take to limit spread, the recognized best practices (including respiratory etiquette, hand hygiene, physical distancing, etc.), and any travel restrictions in place?	Y

## Emergency preparedness and response plans

---

Has a club medical response plan for COVID-19 been developed?	Y
Personal protective equipment (e.g. masks, gloves, gowns) for onsite medical personnel where deployed	N/A
Hand sanitizer and alcohol rubs/gels, tissues, frequently replaced soap canisters and closed bins for safe disposal of hygienic materials (e.g. tissues, towels, sanitary products) in washrooms and changing rooms	N/A
Hand sanitizers and alcohol rubs for all entrances and throughout the venue	N
Is there a procedure for athletes or staff to clearly identify whom to contact and how to do so if they or other participants feel unwell?	Y
Is there a protocol in the Province or Municipality to report suspected cases and request testing and epidemiological investigations?	Y
Are first-aid services or other medical services in-place and equipped to support patients with respiratory symptoms?	N
Are there any designated medical facilities that manage patients with COVID-19 infection in the Province or Municipality?	Y
Are there transportation services with trained medical professionals available to transport critically ill patients with severe acute respiratory infections to a hospital, if necessary?	Y
Has a cleaning schedule been developed to ensure the venue is clean and hygienic – wiping surfaces and any equipment regularly with disinfectant is strongly recommended (before, during and after training and between each group attending the venue)?	Y
Are there established screening measures, including temperature checks in place for participants at the point of entry or drop-off, in venue, on-site medical facilities (first-aid points)? (Please specify in Comments what these screening measures include) - Comment: We are in communication with local hospital to provide us with temperature thermometers with sanitation equipment/tools and face covering masks that we can use at field locations if and when it's needed and or required	N
Does the medical response plan include protocols for organizers to notify all participants of possible exposure to COVID-19 if the organizers are made aware of any suspected or confirmed cases that attended training?	Y

## Stakeholder and partner coordination

---

Is there an established mechanism for collaboration and coordination between the health sectors and the Provincial and Territorial Member Association.	?
Are there agreed, clear and easily understood processes in place for reporting to external multi-sectoral stakeholders (Including public health and sport governing bodies) and disseminating risk communication messages ?	N
Is the facility/venue managed by the local municipal authority?	Y

## Governance

---

Is there a decision-making authority/body and an agreed procedure to modify, restrict, postpone or cancel club and/or training events related to the evolving COVID-19 outbreak? N

Have the club and facility organizers and staff undergone training and exercises on personal safety procedures and emergency mitigation measures (including those specifically listed in this checklist)? N

## Risk communication

---

Has coordination been set up with local media channels and social media sites such as Twitter, Facebook and Instagram so that messaging can be coordinated to provide targeted messaging from organizers (including proactive messaging about the status of club events, including changes and cancellations)? Y

Has there been monitoring of local media and social media established for rumours or negativity to be able to counter them early? (Please explain in the comments what protocols are in place for counter messaging) - Comment: Our Office Manager and Social Media team are in-charge of this. Y

Is there a designated person(s) to lead media activities and tasked with managing all external communications with Provincial and Municipal government officials, the general public, and the media? (If yes, please identify the spokesperson in comments) - Comment: Our Chair is championing this. Y

Is there a risk communication strategy for the club and/or facility in regard to COVID-19? N

## Public health awareness of COVID-19

---

Has advice included information on the meaning of the following measures: quarantine, self-isolation and self-monitoring? N

Has information on the at-risk populations been provided to all staff involved in the club and facilities, athletes, officials, and others so they may make an informed decision on their attendance based on their personal risks? N

Has public health advice on clinical features of COVID-19, preventive measures, especially respiratory etiquette, hand hygiene practices, and physical distancing, been shared with all staff involved in the club and facilities, athletes, officials, and personnel of all relevant stakeholders? N

## Specific mitigation measures

---

Have return to train health checks been performed on all athletes to ensure underlying co-morbidities, medications, allergies, etc. are documented? N

Is there a plan to monitor the number of participants in the venue/facility where restrictions for gatherings are in place locally? Y

Will only one team/age group participate at any one session?	Y
Does the facility/venue require a permit from the local authorities?	Y
Has the training schedule been adapted to meet social distancing requirements?	Y
Are all specific Provincial, Territorial, Municipal Health Authority requirements being met?	Y
Will all designated seating and/or spectator areas be closed?	Y
Will the training only be open to athletes and officials?	Y
Will athletes be given closed containers to allow for the safe disposal or storing of all hygienic materials (e.g. tissues, towels, etc.)?	N
Are there measures in place to eliminate the sharing of equipment, water bottles, towels, etc.?	Y
Will the athletes be separated from other groups, such as officials, facility and club support staff, to limit transmission?	Y
Will there be daily health checks of club and facility staff, athletes, and officials?	N
Have formal communications been established with local Public Health Authorities regarding plans to resume activities?	N
